

WINTER GROWING: IN-PERSON SESSION

In Partnership with
Shade of Miti

SHADE OF MITI

Wednesday, January 8, 2025
10:00 a.m. – 11:00 a.m.

Our gardens may be covered in snow, but there's lots that we can grow at home!

Join local farmer Rav from Shade of Miti to learn how to grow microgreens at home. We will learn about different indoor growing techniques, how to select seeds and how to take care of your microgreens indoors over the winter. This workshop is perfect for people who are new to growing food.
